Mr Jason Julius
John Holland Pty Ltd
PO Box 4218
Weston Creek ACT 2611

Dear Mr Julius

Further to your application received 20 October 2010, please find attached Waterway Works Licence WC801 issued under the *Water Resources Act 2007* for the construction of a rock footpath to access Murrumbidgee River at Tharwa Sandwash.

Whilst this licence allows you to undertake waterway works, it is your responsibility to ensure that these works are undertaken in accordance with this licence and that the structures do not interfere with the rights of neighbours or with the legitimate use of easements.

No water may be taken from Murrumbidgee River for the construction work unless you hold a Licence to take water or an Exemption from the requirement for a Licence to take water.

Please read carefully the conditions of your licence. Please note this Waterway Works Licence does not negate other relevant planning controls and guidelines that may apply to the property or legislative requirements such as those that may be necessary under the *Environment Protection Act 1997*.

If you have any questions regarding the Licence or any related matter, please contact Tom Nilsen on telephone 62071354 or e-mail tom.nilsen@act.gov.au.

Yours sincerely

Peter Donnelly

Licence Conditions

- 1 This licence is valid for a period of twelve months from the date of issue.
- 2 No water is to be taken from Murrumbidgee River or any other non-potable water source, unless the person holds a Licence to Take Water or holds an Exemption From the Requirement For a Licence to Take Water.
- 3 The grant of this licence does not imply a right to take a specific quantity of water under a future licence.
- 4 It is the licence holder's responsibility to ensure that the structure is properly and safely constructed and maintained so that it does not pose a risk to persons or property.
- 5 The works are to be undertaken in such a manner to minimise any erosion or sediment loss from the site.
- 6 Disturbed land is to be stabilised as soon as possible after the works are completed. Temporary measures such as silt fencing must remain in place until the results of seeding are apparent and exposed earth has been stabilised.
- 7 Vehicles are to use formed roads where possible. Vehicle movements off formed roads are to be restricted to minimise disturbance and compaction of surrounding grassland.
- 8 The licence holder must have legal access from the land manager to access the works site, prior to works commencing.

Notes:

1. The issue of a Waterway Works Licence does not negate other relevant planning controls and guidelines that may apply to the property. Nor does it negate other Commonwealth or ACT legislative requirements such as those that may be necessary under the Environment Protection Act 1997.
2. The issue of a Waterway Works Licence on lands under a rural lease may require a Development Application for the works associated with the Waterway Works Licence.
