

Community Support Program application guidelines

Our Community Support Program is driven by our vision 'to be a valued partner in our community'.

As Canberra's only water and wastewater utility, we're committed to supporting the local community through diverse projects and working with organisations who are making a difference. Our ongoing commitment to the Canberra Community will continue into 2024 with our Community Support Program, which allows us to give back locally and support grassroots organisations, charities and the not for profit sector. Our sponsorship program strives to build relationships with organisations and communities by working collaboratively to sustain and enhance the quality of life for all Canberrans.

Our Community Support Program gives community organisations the opportunity to apply for funding for specific projects to support the ACT and surrounding regions. As a valued partner in the community, we strive to ensure a variety of sectors supported through this program.

Sponsorships are limited. Each year we receive a large number of applications, and although they may meet our guidelines, we unfortunately are not able to sponsor them all. Your sponsorship request may be declined, or we may offer an alternative to the support requested.

We're looking to support the following community sectors!

- Community inclusion and disability
- Health and wellbeing
- Livability and inclusion
- Affiliated industry, including environment and sustainability
- Aboriginal and Torres Strait Islander
- Community sport

Sponsorship requests should demonstrate the activity meets the following criteria:

Local benefit	The activity provides benefits to the ACT or surrounding local communities.
Alignment	The applicant and activity aligns with our values.
Reach	The activity supports a reasonable number of direct beneficiaries.
Internal benefit	The applicant/activity allows for broad employee involvement or benefit.
Engagement	The activity provides opportunities to educate the community about water and wastewater services.
Community interest	The applicant/activity reflects, supports and encourages the interests of the community in which we operate.

Sponsorship requests will not be considered if:

- Applications/organisations discriminate against any persons, organisations or groups.
- Applications from individuals, including those seeking support for activities such as academic studies or travel.
- Organisations or activities that are environmentally negligent or do not endorse sustainable practices.
- Organisations or activities which are deemed to promote controversial issues including gambling, tobacco and alcohol organisations that provide direct benefit to a political party, political organisation or politicians/candidates in public office.
- Direct benefit to a political party, political organisation or politicians or candidates for public office.
- Applications/organisations who do not have a positive reputation in the community.

Thank you for your interest in our Community Support Program
